# mTEC™ | SmoothRide™ Service

**Feel the difference of a truly comfortable and seamless ride**

**Putting ourselves in the driver's seat is part of who we are. That commitment led us to develop mTEC™ optimization services. SmoothRide is a performance optimization service that transforms cab comfort - creating a floating sensation using a self-regulating air bag technology. By actively reducing bumps and jolts, SmoothRide helps minimize driver fatigue and delivers a more comfortable and seamless ride.**

Our experienced team of engineers consistently improves and evolves the design of all our truck bodies and accompanying technology to ensure its safety and ease of use. For even more optimized comfort, also check our **mTEC™ | StepMate** or **mTEC™ | Cat Cage** solutions.

## The mTEC™ | SmoothRide Service

*SmoothRide includes a professional service tailored to your vehicle, featuring:*

- Self-leveling
- Use of factory cab mounting locations
- Integration with all body applications
- Self-regulating air pressure technology
- Heated auto drain valve
- 3-Year/36,000 mile warranty
- Available on all Chevrolet Silverado 4500/5500/6500 2-door & 4-door chassis, as well as on all International CV 2-door & 4-door chassis

## Where to schedule your service?

Schedule your SmoothRide and other **mTEC™** optimization services at any Monroe Upfit Center, or contact us for guidance if you prefer to perform the service yourself.

Go to www.monroetruck.com/locations or scan QR code on the left to find address and contact details.
