

StepMate™ | Safer & Easier at Every Step

Lowest and Safest Cargo Entry System

The new StepMate™ is the lowest and safest cargo space entry system on the market. This proprietary step, bumper, and grab handle system is integrated into the Monroe Service Body to make accessing the cargo space easier than ever.

FEATURES

- Lowest step height on the market
- Heavy duty entry step, rated 500 lbs
- Heavy duty 12 gauge construction
- Powder coated black finish
- Recessed trailer plug mounted into the face plate for easy access
- Pooched bumper reduces slippage and dirt transfer
- Integrated entry step and entry grab handle
- Recessed L.E.D. lighting system in the bumper
- Back-up camera mounted near face plate
- Bumper is non-body mounted to minimize collision damage

Safe

The no-slip system uses a pooched bumper at the optimal height to eliminate slippage, improve grip, and offer assurance that users can get in and out of trucks without risk.

Ergonomic

Our step-height bumper system with grab handles allows three point contact, and makes getting in and out of your work truck easy and comfortable, even after a hard day's work.

Durable

Monroe's **StepMate™** is designed so that you'll never have to replace it, built from powder-coated 12-gauge steel and installed directly to the chassis for strength and confidence.
