RM-45 Series Crane Body

Designed and built for the toughest jobs.

Get all the advantages of a dependable service truck, plus the lifting strength of a hydraulic crane. With customization options including welders, compressors, tool systems, and more, give your team the equipment they need to work safely, efficiently, and confidently.

Versatile. Durable. Ready to lift.

Built for performance, the RM-45 Crane Body delivers the strength, stability, and adaptability demanded by both municipal and commercial operations.

On-ground crane packages include the following equipment:

Key Features

C-Tech Drawer Package

7-drawer package for front street side compartment and bolt bin in horizontal compartment.

Torsion Box Understructure

Our industry-preferred design ensures exceptional durability and supports cranes operating at peak capacity.

Master Locking System

A single handle and padlock secure an entire compartment side using a steel slide bar - maximum protection with minimal effort.

Hydraulic Outriggers

Full-power hydraulic outriggers deliver reliable stability and safety for heavy-duty lifting.

Vanair RC40 Air Compressor

40 CFM with 150 max PSI and cold weather package. Also includes a 50-ft hose reel in curbside rear compartment.

3-Point Locking

True 3-point locking secures compartments tightly with the simple close of a handle.

Rear Crane Compartment

Includes control panel, hydraulics for outriggers, and 50 ft x 1/2" hose reel with air filter/lubricator/regulator.

Curbside Drawer Configuration

Streetside Drawer Configuration
